

UNDERWATER THREAT ANALYSIS REPORT

AI-Based Maritime Security System | DRDO Project 25243

Timestamp:	2026-06-20 07:41:19 UTC	Location:	Indian Ocean
Operator ID:	OPR-001	Alert Level:	NONE
Total Detections:	0	Anomalies Logged:	3

ANALYSIS SUMMARY

■ NO SIGNIFICANT THREATS — Routine monitoring

IMAGE ANALYSIS

Original Image

Enhanced Image

Detection Overlay

QUALITY METRICS

Metric	Before Enhancement	After Enhancement	Improvement
UIQM (primary)	1.0	1.0	0.0
UCIQE	0.2819	0.632	0.3501
PSNR (dB)	—	None	—
SSIM	—	None	—

PSNR/SSIM unavailable — no clean reference image. UIQM/UCIQE are primary metrics for real-world footage.

DETECTION RESULTS

No confirmed detections above threshold.

UNCONFIRMED ANOMALIES (3 logged)

- kite — Confidence: 43% (threshold: 50%) — Possible kite detected but confidence (43%) below threshold (50%). Logged as unconfirmed anomaly.
- kite — Confidence: 36% (threshold: 50%) — Possible kite detected but confidence (36%) below threshold (50%). Logged as unconfirmed anomaly.
- kite — Confidence: 31% (threshold: 50%) — Possible kite detected but confidence (31%) below threshold (50%). Logged as unconfirmed anomaly.

IMPORTANT DISCLAIMER

This system provides AI-assisted analysis only. All HIGH/CRITICAL detections require human operator confirmation. Country identification is inference-based from visual features only — NOT confirmed intelligence. Do not take autonomous action based on this system alone.
